Eric Edwards, President & CEO of TMI commented, "We are very pleased to be partnering with Wealth Minerals to advance exploration on the large and prospective Escalones Copper Project. Wealth has a demonstrated history and experience in discovering and advancing exploration and development projects worldwide. Their technical and financing teams have repeatedly demonstrated their unique ability to identify projects at an early stage that have the potential to become major producing projects. We look forward to the next phases of discovery and value addition at Escalones under Wealth leadership".

Following successful completion of due diligence, Wealth Minerals will determine, at its sole discretion, whether Wealth Copper will acquire the Escalones Copper Project by way of the acquisition of all of the shares of the Company's Chilean subsidiary, TriMetals Mining Chile SCM, or by way of an assignment and transfer of all rights, title, benefit and interest in the assets comprising the Escalones Copper Project and the assumption of all liabilities related to such assets.

Prior to or concurrently with completion of the Spin-Out, Wealth Copper is to raise at least Cdn\$5.0 million in funding (the "Wealth Copper Private Placement"), and TMI is to hold 30% of the shares of Wealth Copper post-funding and will also be entitled to nominate one representative to Wealth Copper's board for so long as TMI holds at least 20% of the issued and outstanding shares of Wealth Copper. TMI will also have a right to participate in future equity financings of Wealth
